LOCATION

WELCOME TO MÉXICO

It is with great satisfaction that on my name and on behalf of the Mexico Sportfishing Federation, which I'm honored to chair, I express my best greetings to all participants convened to the **2018 Black Bass World Championship** at its 14th edition.

The event is going to take place in Mexico this year, specifically in the famous Cuchillo Lake, where the trophy sizes Black Bass lives. Suffice it to say that it possesses the FIPSeD World Championships Record (6.060 kg.)

I'm confident that athletes of each participating Nation, joined here together with managers, coaches and juries, will taste and appreciate the world famous Mexican hospitality, our excellent gastronomy and of course accompanied by a shot ...or the whole tequila bottle.

I am particularly delighted to express my warmest welcoming to everybody in the aim to live together some happy days in the name of sport.

I also wish to thank the Government of the State of Nuevo Leon for the invaluable help and their directions of tourism and sports, as well as for the municipal Government of China county.

A special thanks to the organizing Committee, established just for this purpose, which I'm confident will entrust a successful result thanks to their commitment and their action of proselytism.

"Good luck to everyone!"

Sincerely
