24th EUROPEAN COARSE ANGLING CHAMPIONSHIP 2018 16th – 22nd July 2018 // Radeče, Slovenia

INTRODUCTION

Slovenia is a country located on sunny side of Alps. It's known for it's picturesque nature, clean waters and is a biodiversity hotspot. This area is influenced by several big geographical elements – Alps, Pannonian Plain, Dinaric Alps and Mediterranean Sea.

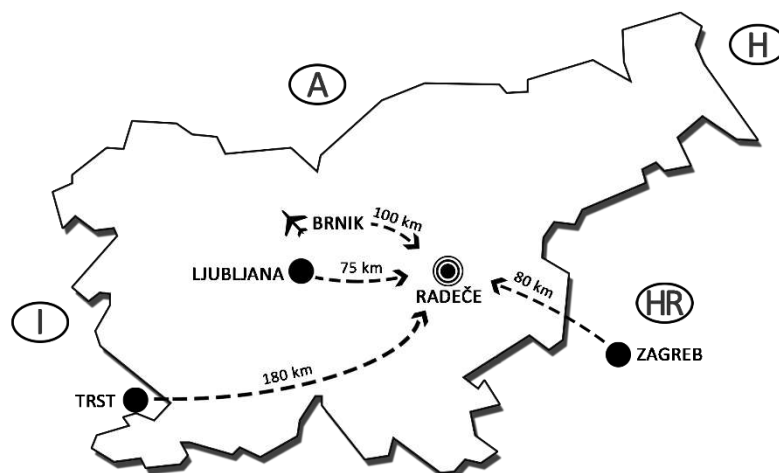

Radeče is a small town with approximately 2500 inhabitants. The town lies under the castle hill at the confluence of river Sava with Savinja river and stream Sopota. It is surrounded with 700 to 1200 metres high hills.

Radeče lies in central Slovenia; the distance from the capital Ljubljana is of about 80 kilometres, same distance from Zagreb (capital of Croatia), about 180 kilometres from Trieste, Italy, and 100 kilometres from Brnik, the biggest airport in the Country.

24th EUROPEAN COARSE ANGLING CHAMPIONSHIP

The two main rivers that confluence into the town Radeče are Sava and Savinja. Sava springs in Julian Alps near tri-border of Slovenia, Austria and Italy. Savinja springs in Carnic Alps. Thanks to the snow melting, it is possible to fish there since the end of May until the beginning of December.

Sava flows through Zasavje Region for about 30 kilometres, in a widening canyon which gets into the Radeče plain. Afterwards, the rivers continues its stream through the Hotemez village and the absorption lake of the hydroelectric station of Vrhovo.

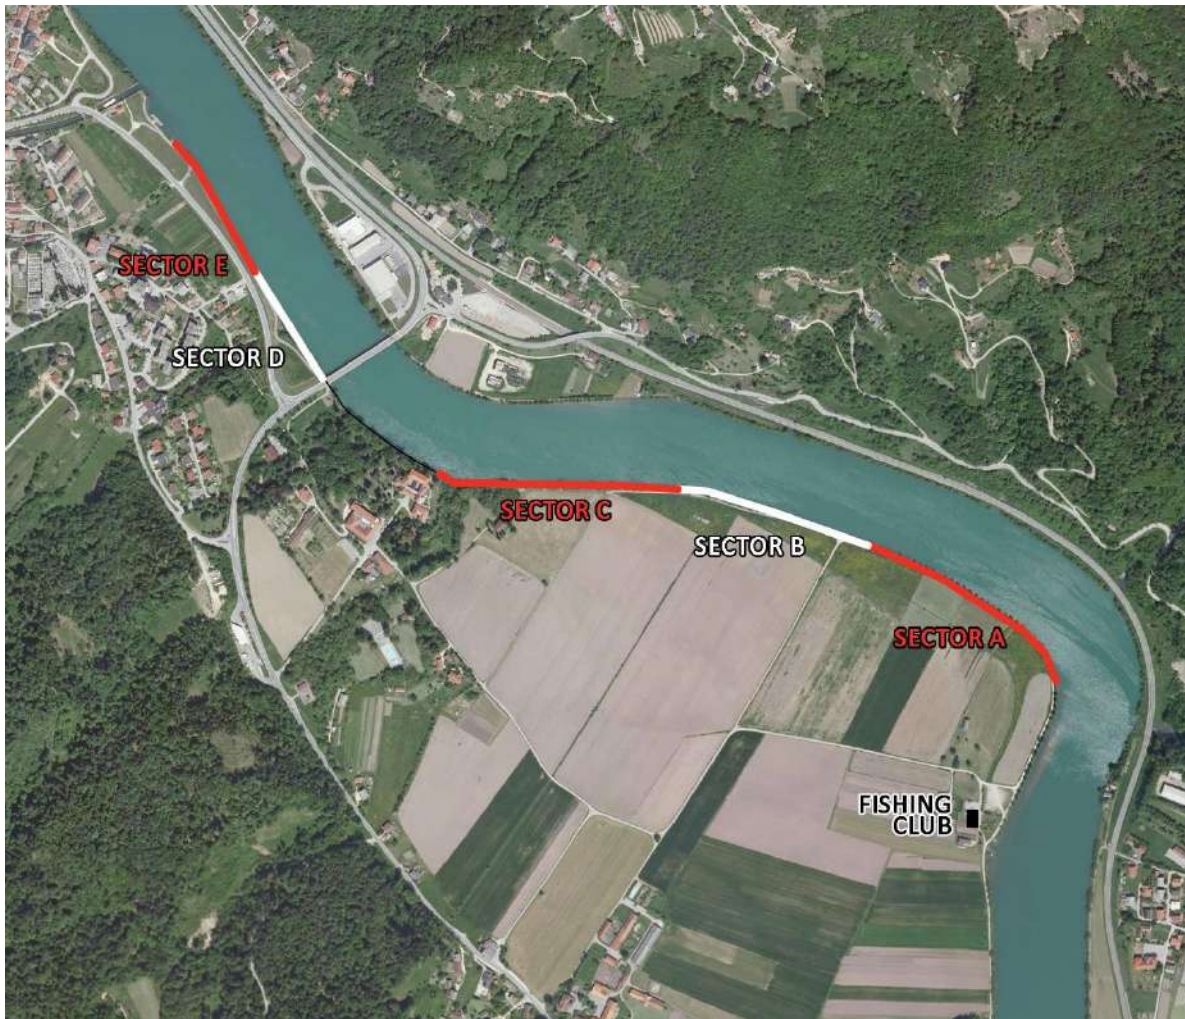

FISHING VENUE

The venue lies upstream from the Fishing club Radeče to the confluence of Sava and Sopota in Radeče.

The river is mostly populated of vimba bream and also with barbel, carp, bream, bleak and roach.

The venue is modernised every year and the Fishing club of Radeče adds every year a stock of juvenile autochthonous fish species.
